Currently pursuing a Bachelor of Science in Cybersecurity (Defensive) as part of the combined 4+1 B.S./M.S. program.

High School Diploma, C-Tech

Chelsea Career And Technical Education High School | Sep 2019 - Jun 2023 | Grade: 3.2

Completed hands-on C-Tech training in telecommunications.

Skills: Fiber Optics, Telecommunications Systems

LICENSES & CERTIFICATIONS

Wireless Technician

C-Tech Associates Inc. | Issued Jun 2023

Skills: Wireless Networking, 5G

Grounding and Bonding Technician

C-Tech Associates Inc. | Issued Jun 2023

Skills: National Electrical Code, Electrical Safety

Network Cabling Specialist Copper Systems

C-Tech Associates Inc. | Issued Jun 2023

Skills: Structured Cabling, Copper Cabling

Telecommunications Technologies

C-Tech Associates Inc. | Issued Jun 2023

Skills: Telecommunications, Home Networking

sUAS Trust Certificate

Federal Aviation Administration | Issued Aug 2026

EXPERIENCE

Graduate Secretary | ASIS&T

Part-time | Sep 2026 - Present | Albany, New York, United States | Hybrid

- Elected as Graduate Secretary for the 2026-2027 ASIS&T UAlbany Chapter E-Board, demonstrating leadership and commitment.
- Prepared detailed meeting minutes to document discussions, decisions, and action items for effective communication.
- Managed chapter records and tracked attendance using Google Forms, Google Drive, Microsoft Teams, and SharePoint.
- Organized shared files and coordinated follow-up communication to ensure continuity of chapter operations.

Skills: Technical Writing, Records Management

AI Training Evaluator | Handshake AI

Contract | Sep 2026 - Present | Remote

- Evaluated frontier AI models by reviewing and benchmarking AI-generated content against specific user prompts.
- Conducted quality assurance through entity tagging and product verification, identifying subtle AI artifacts.
- Provided structured feedback to train next-generation large language models, enhancing their performance.

Skills: Quality Assurance, Artificial Intelligence (AI)

Attractions Attendant | Apex Entertainment

Part-time | Oct 2024 - Present | Albany, New York, United States | On-site

- Managed daily operations and guest experiences across various attractions including escape rooms and laser tag.
- Operated POS systems, processed transactions, and provided assistance to guests to enhance their experience.
- Maintained facility readiness through cleaning, restocking, and public-address announcements, ensuring a safe environment.

Skills: Event Coordination, Customer Service

CEHC Work-Study | University at Albany

Part-time | Sep 2023 - Present | Albany, New York, United States | On-site

- Developed custom designs using circuit-making tools and Blender, enhancing product innovation.
- Operated 3D printers to prototype and fabricate a variety of products, ensuring high-quality outputs.
- Transforming concepts into tangible products.

Skills: Prototyping, 3D Printing

Makerspace Intern | University at Albany

Internship | Jan 2026 - May 2026 | United States | On-site

- Assisted in the operation of the CEHC Makerspace, facilitating hands-on creative projects with peers.
- Supported activities including 3D modeling, 3D printing, to enhance student learning.
- Engaged in custom apparel printing and basic prototyping, fostering innovation and creativity.
- Developed skills in electronics and creative design, contributing to a collaborative environment.

Featured artifact: "Grad Danes" - 2026 Graduation Trinket Finale Product

Skills: Prototyping, 3D Printing

Drones Lab and Robotics Intern | University at Albany

Internship | Aug 2025 - Dec 2025 | Albany, New York, United States | On-site

- Diagnosed, repaired, and maintained drones and RoboMaster systems at the UAlbany Drone Lab.
- Conducted routine maintenance and testing to ensure optimal performance of devices.
- Assisted with outreach events, demonstrating drone technology and robotics to visitors.

Skills: Hardware Troubleshooting, Drone Maintenance

PROJECTS

Project Hedgehog

Oct 2026 - Present | Associated with Handshake AI

Collaborated on a high-impact AI data collection and evaluation initiative (Project Hedgehog) to test and refine advanced generative AI models, focusing on multimodal capabilities. Acted as a quality inspector to analyze, grade, and optimize model performance based on strict instruction-following, technical accuracy, and visual/audio alignment.

Skills: Data Annotation, Generative AI

College Access AI Development Project: HIA AI

Feb 2023 - Jun 2023 | Associated with Chelsea Career And Technical Education High School

Collaborated with engineering teams to design and test an AI-based platform intended to improve student access to financial aid and college selection. Considered data privacy, ethical AI deployment, and risks affecting vulnerable users, translating those concerns into safer system design.

Skills: Artificial Intelligence (AI), Data Privacy

AI and VR Forecasting Challenge: Goldman Sachs

Jan 2023 - May 2023 | Associated with Chelsea Career And Technical Education High School

Developed an AI and VR project to forecast emerging industry trends by analyzing macroeconomic shifts and emerging-market data. Evaluated how rapid technological and economic expansion can introduce new risk vectors before established security frameworks are in place. Received the 1st Place and 2nd Place Creativity Awards.

Skills: Virtual Reality (VR), Artificial Intelligence (AI)
